

Dear Horse Owner,

Last year we were delighted that you agreed to participate in our targeted worming initiative, and we are hoping that you will be keen to do so again for the year of 2021. Overall this year's plan was a great success, helping more than 50 yards to benefit from reduced wormer use, reduced costs of worming and a reduction in the risk of resistance.

If you would like to enroll for this year's (2021) new and improved plan, then please fill out the attached request form and return via email.

- £49 + VAT per horse per year which includes 3 worm egg counts, an autumn wormer and individually tailored veterinary advice for your horse.
- A discounted price of £44 + VAT for yards with large numbers of horses (>5 horses) provided there is **only one point of contact** managing the worming*
- We advise worm counts are performed at regular intervals throughout the year. For example, Feb-March, May-June, Aug-Sept and with an Autumn wormer due in most horses in November-December
- Email reminders when faecal samples are due to be submitted.
- **NEW!** This year (2021) an email will be sent directly from the lab team to the contact person and to the designated vet so that results come out even quicker!
- A designated vet aiding you on a case by case basis.
- A dedicated worming team at Rainbow Equine Hospital comprised of vets, nurses and administrative staff.
- **NEW!** The option for a tapeworm ELISA blood test to potentially eliminate the need for any tapeworm treatment. **As a thank you for your support in reducing the resistance to wormers we are offering a 10% discount on tapeworm ELISA blood tests for any horse that is included on the SMART PLAN*** Please be aware this can take 5-7 days for your results. The current cost is £24.50 + VAT. **
- The option for a cyathostomin ELISA test in the Autumn/Winter for an extra £21+ VAT to further assess for encysted larvae in those horses who have had consistently low worm egg counts throughout the year or at the treating veterinarian's clinical discretion. Please be aware this can take 5-7 days for your results**

Thank you for helping us to reduce resistance to wormers in our area. Please spread the word to anyone who is not using a targeted worming plan and encourage them to do so for the good of all the horses in North Yorkshire and Humberside. We appreciate your support. Please don't hesitate to contact "the worming team" if you have any questions or concerns.

*Terms and conditions apply: First opinion clients only. Visit charge not included. 10% discount can be redeemed at any time in the year for each enrolled horse. Bloods must be clearly marked that with the horses name, owners name, designated vets name and SMART PLAN contact details to avoid missing out on the discounted price.

**Terms and conditions apply. Pricing subject to change.

Kind Regards,

The Rainbow Team
